

## How to create videos from images of properties

The application manager has the possibility to create videos from the photos of their properties.

---

To do so, take the following steps:

1. Access the '**Properties**' tab;

2. Select the property to access the property details page;

3. On the right sidebar, select 'Create video from images';

4. While editing the video, drag the images from the 'Available pictures' section to the 'Compose video' section and set the order that you want them to show;

**4.1.** To add transition effects between images, choose from the list of transitions, the effect that you want and drag it to the space between the images;

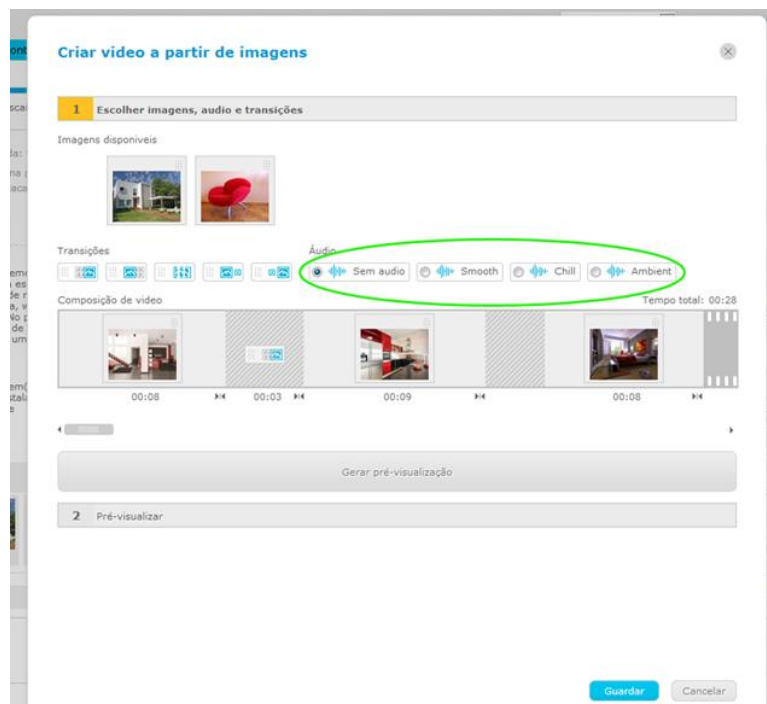

**4.2.** To set the transition time between each image, adjust the time controller below the images forward or backward;

The screenshot shows a software interface for creating a video from images. The main title is "Criar video a partir de imagens" with a close button (X) in the top right corner. Below the title is a progress bar with a yellow segment labeled "1 Escolher imagens, áudio e transições".

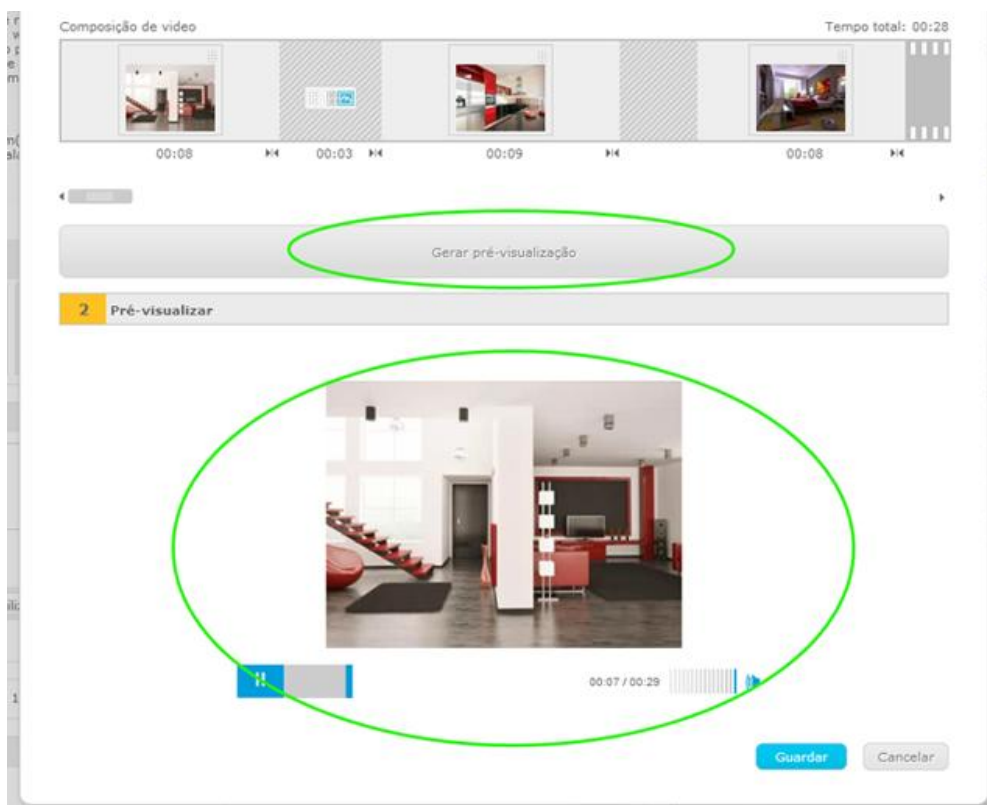

The interface is divided into several sections:

- Imagens disponíveis:** Two image thumbnails are shown: a house and a red chair.
- Transições:** A row of icons representing different transition effects.
- Áudio:** Four audio options: "Sem audio", "Smooth", "Chill", and "Ambient".
- Composição de video:** A horizontal timeline showing the video sequence. It includes three image thumbnails with durations: "00:08", "00:03", and "00:09". There are also two transition icons with a duration of "00:08". The total duration is "Tempo total: 00:28". The first "00:08" and the first transition icon are circled in green.
- Gerar pré-visualização:** A large button to generate a preview.
- 2 Pré-visualizar:** A progress bar for the second step.
- Buttons:** "Guardar" (Save) and "Cancelar" (Cancel) buttons at the bottom right.

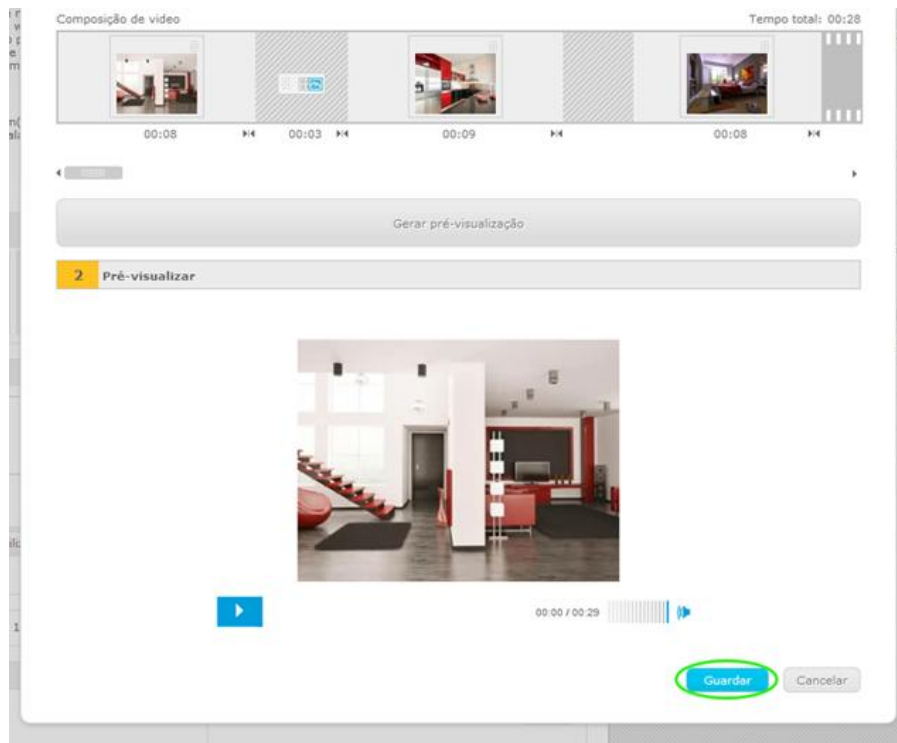

4.3. There is also the possibility to choose a background music for the video. Select a music from the **'Audio'** list;

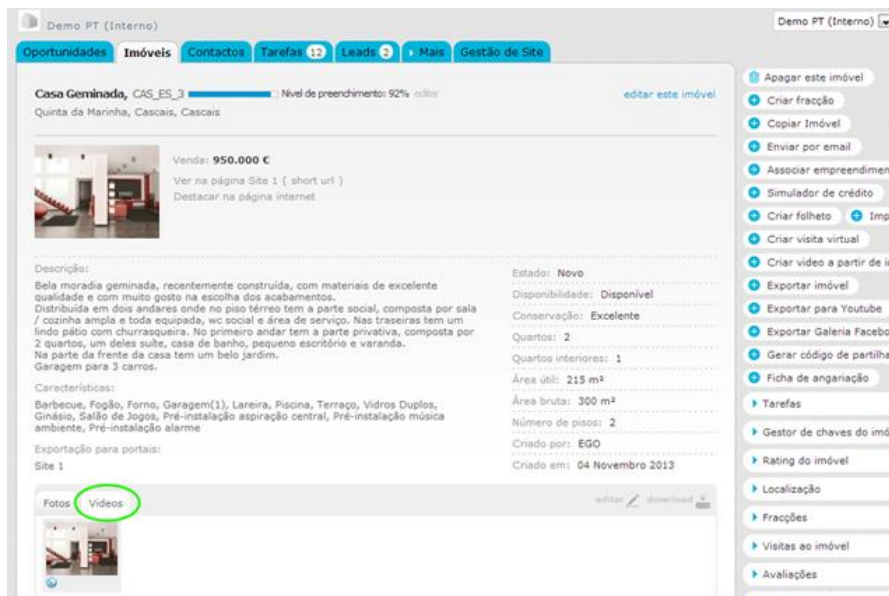

5. For a preview of your video click **'Generate preview'**;

## 6. Lastly, save your video;

## 7. The video will be added to the 'Videos' category on the property details page.
