

## How to apply notifications?

eGO users have the possibility to receive email notifications about different actions that happen on eGO.

Email notifications help users to keep track of all the things that happen on the application. Notifications can be about overdue tasks, received leads (internet interactions), recently added properties, among others.

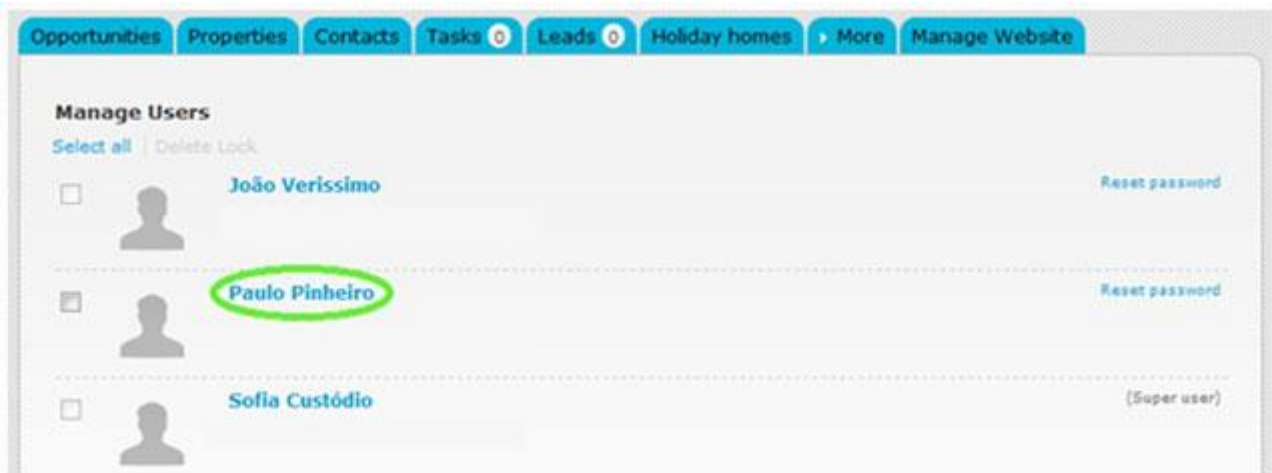

To choose the notifications you wish to receive on your email, take the following steps.

1. On the footer of the software, click **'Users'**;

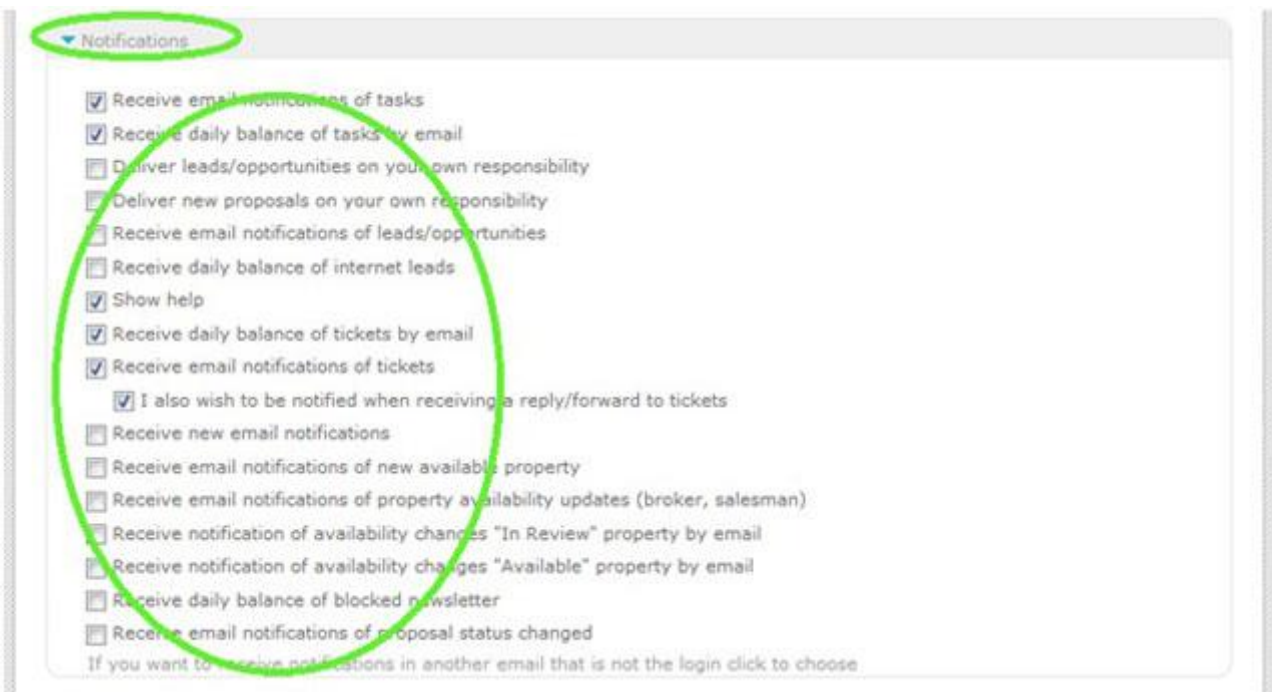

The screenshot displays a user profile for 'Agatha Hayes' and a property listing for 'Townhouse 3 Rooms, CAS\_10'. The user profile includes contact information: Phone: (44) 78211159932 and Email: a.hayes@yahoo.co.uk. The property listing shows it is 'Sold' and priced at £465,000. The footer of the software contains navigation links: Settings, Users (highlighted with a green circle), Groups, Support, FAQ, Updates, and a row of flags representing various countries. Below the flags, it states 'EGO is a service by Janela Digital. Privacy policy | Terms of service'.

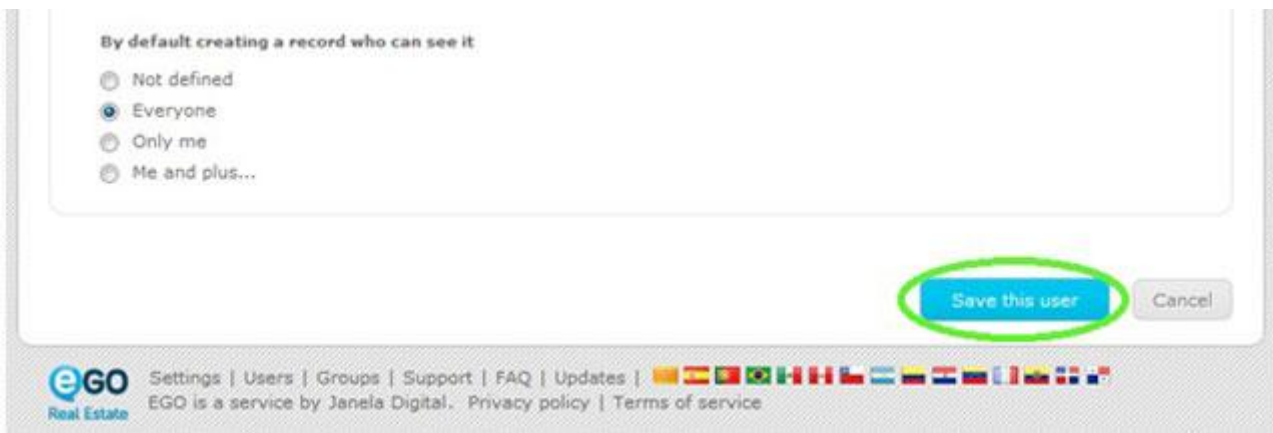

2. Select your username;

3. Scroll down to '**Notifications**' section and tick the notifications you want to receive on your email address;

4. After selecting the notifications you want to receive, click '**Save this user**';
