

## How do I add a video to the homepage of my website?

The eGO user can add videos to their website page, simply by following our steps.

1. Go to the "Websites" menu to open your website editor.

2. Inside the editor, **click on the Slideshow image**. A taskbar will appear, in which you'll select the option **"Hide"** ( ), so that this way the element will be hidden and you can make it visible in the future.

**NOTE:** You will only use this menu if you have a slideshow of properties or images. If you do not have any elements, you can go from point 1. to point 3.

3. In the left-hand tab, click on "Elements" and select "Video".

5. Click on the video to display the task bar. By clicking the "Align" icon ( ) you can choose the options "Stretch horizontally" and "Stretch vertically", so that the video fills the whole screen.

6. If the video does not get the correct dimensions, you can increase or decrease the size of the section.

7. Click on the "Sort" icon ( <a>in and send the video backwards until all elements are visible.</a>

**8**. Check that it is properly displayed in all viewports and finally save and publish. If you prefer, select the "Preview" option instead, to make sure everything looks fine before publishing.
